- 5) There should be compulsory medical examination of both the man and the woman before they marry each other

**Q. 3. Answer the following questions. (10)**

**a) Write the passage in precise form**

Discipline is of the utmost importance in student life. If the young students do not obey their superiors and go without discipline, they will be deprived much of the training they should have at this period and in future they will never be able to extract obedience from others in the society. Society will never accept them as persons fit for commanding and taking up any responsible positions in life. Duty of all the students to observe discipline in the preparatory stage of their life. At first sight it may appear to us that discipline takes away individual liberty. But on analysis it is found that it does not do so, for liberty is not license. We find disciplined liberty at the root of all kinds of human happiness.

**b) Read the following passage and translate in Marathi/Hindi.**

Teaching is the noblest of professions. A teacher has a sacred duty to perform. It is he on whom rests the responsibility of moulding the character of young children. Apart from developing their intellect, he can inculcate in them qualities of good citizenship, remaining neat and clean, talking decently and sitting properly. These virtues are not easy to be imbibed. Only he who himself leads a life of simplicity, purity and rigid discipline can successfully cultivate these habits in his pupils. There are moments when domestic worries weigh heavily on his mind, but the delightful company of innocent children makes him overcome his transient moods of despair.

**OR**

**Write the given passage in paraphrasing form.**

The term “Sustainable Development” is defined as the development that meets the needs of the present generation without excessive use or abuse of natural resources so that they can be preserved for the next generation. There are three aims of sustainable development; first, the “Economic” which will help to attain balanced growth, second, the “Environment”, to preserve the ecosystem, and third, “Society” which will guarantee equal access to resources to all human beings. The key principle of sustainable development is the integration of environmental, social, and economic concerns into all aspects of decision-making.
